 - Class 2
 - Class 3
 - Class 4 (Lowest)

Wetland Areas

Map 11

The Crucial Areas Planning System (CAPS) is intended to provide useful and non-regulatory information during the early planning stages of development projects, conservation opportunities, and environmental review.

Finest data resolution is at the square mile section scale or waterbody. Use of these data layers at a more localized scale is not appropriate and may lead to inaccurate interpretations.

This map was prepared May 2010 by Global Positions, LLC as part of the Pondera County Growth Policy Project - Using MT FW&P S CAPS system.

Projection: Lambert Conformal Conic
Coordinate System: State Plane, Zone 2500
Units: Meters Datum: NAD1983
