

Pondera County

Land Ownership

Map 20

This map was prepared October 2010 by Global Positions, LLC as part of the Pondera County Growth Policy Project.

Land ownership information shown on this map is from the Montana Cadastral data. The cadastral data may also be known as real estate data, parcel information, or tax parcel information. The Cadastral NSDVMSDY simplifies subtleties in land ownership by providing cadastral information in different components: cadastral reference (GCDB PLSS in Montana), parcels, and related coincident geometry (trust lands, stipulations, subsurface rights, boundaries, etc) which all carry a core set of information.

Montana Cadastral Framework is built primarily upon the measurement based cadastral reference of the Geographic Coordinate Database (GCDB) maintained by the BLM, with tax parcels as defined by the Dept. of Revenue.

Spatial data (base maps) were obtained from the Montana Geographic Information Clearinghouse - Montana Natural Resource Information System (MNRIS).
