

Surface Wells and Field Boundaries

Map 9

This map depicts surface wells and field boundaries. Map data were created by the Montana Board of Oil and Gas Conservation orders using legal descriptions and the Public Land Survey System (PLSS) which is derived from the Bureau of Land Management's Geographic Coordinate Data Base (GCDDB) project. Data obtained from Montana Online Oil and Gas Information System: <http://hoge.dnr.mt.gov/jdplmex.htm> Additional Spatial data (base maps) were obtained from the Montana Geographic Information Clearinghouse.

No warranty, expressed or implied is made and the Board assumes no legal liability or responsibility for the accuracy, completeness, or usefulness of the information contained herein. Questions should be addressed to and possible errors reported to the Board's Billings, MT office at (406) 636-0048.

This map was prepared October 2010 by Global Positions, LLC as part of the Pondera County Growth Policy Project.

LEGEND

Surface Well Type

-  Oil
-  Gas
-  Stratigraphic Test
-  Dry Hole
-  Water Source
-  Field Boundary
